

100 Year (1% Annual Chance) Comparison - AE Zone

The 100 Year comparison allows for visualizing changes in the floodplain between two studies.

-  Areas in red are now in the floodplain, but weren't before
-  Areas in yellow did not change, they were in the floodplain before and still are now
-  Areas in green are no longer in the floodplain, but were before
-  Areas with hatch were AE Zone and are now A Zone

1 inch = 1,000 feet
